About This Content

Fly the legendary Spitfire LF Mk. IX over Normandy in June 1944 as the allies attempt to break out of the D-Day landing beachheads. Battle German forces in the air and on the ground as the allies push south over 12 missions south of the Juno and Gold landing beaches. The missions consist of a combination of armed reconnaissance, intercepts, and directed ground attacks.

For this campaign, we teamed up with the greatly respected "Bunyap", who has created an amazing level of detail and content for the briefings and historical background. All missions and flights in the campaign are based on actual missions down to the squadrons, targets, locations, times, weather, flak locations, etc. We believe this will be the most historically accurate portrayal of World War II air combat in a PC flight simulation.

NOTE: DCS: Normandy 1944 Map and DCS: Spitfire LF Mk.IX are required to play this campaign.

Key Features:

- 12 historic missions taken from detailed accounts of Operation Epsom
- Detailed briefing and briefing images, including separate PDF mission files
- Unique kneeboard graphics for each mission

-
- Hundreds of specially recorded voice-over messages to recreate the actual callsigns and accents
 - A wide array of missions included armed reconnaissance, intercepts and ground attack
 - Takes advantage of new AI features like Flak avoidance and authentic formations

Please note that this DLC uses Steam Keys instead of Starforce keys. As such, this purchase cannot be activated on the DCS World e-Shop version.
